THIS IS THE FULL, FINAL RELEASE OF ADOBE CREATIVE SUITE DESIGN PREMIUM FOR MAC OS X.

INCLUDED IS A DISC IMAGE OF THE DVD INSTALLER AND A ZIPPED FILE WITH THE KRACKS FOR EACH APPLICATION.

DISC IMAGE MD5 CHECKSUM: \$0394CFCDDD59E16CC3AF608A54016600.

THIS IS THE VOLUME LICENSE VERSION, MEANING IT DOES NOT NEED ACTIVATION WITH VALID SERIAL NUMBER

Olive74 at 2007-04-25 02:08 CET:

Thx shadow but whats the difference w/ the 1st torrent ? Why is it shorter ? & is it the multilanguage version ?

Twinrehz at 2007-04-25 13:42 CET:

Are there no serials on the web yet?

chillong at 2007-04-25 14:21 CET:

this is 100% not final, but download it if u want...

Olive74 at 2007-04-25 15:33 CET:

Multi or not ? Really full final or not ? Believe in who ?

rubberkeith at 2007-04-25 19:40 CET:

Downloading much, much faster than the other CS3 torrent :)

@chillong: What do you mean by 100% not final?

More importantly, does everything provided with the torrent actually work?

quiproquo at 2007-04-25 20:15 CET:

Be careful, folks. The ONLY no-activation version for ACS 3 is the ENTERPRISE Suite. Premium Suite still needs activation, Enterprise only a serial. The usually krack-solution is a problem for future updates...

chillong at 2007-04-26 15:17 CET:

the volume version too. the serial will be blacklisted

rubberkeith at 2007-04-26 22:50 CET:

Was averaging at 120kbps this morning, now it's struggling to
chip 1... weird.

Anyone planning on seeding in the near future? =P

Anon at 2007-04-27 09:06 CET:

Thnx!

skeetox at 2007-04-27 11:35 CET:

9 seeders at the moment. Going well.

bratling at 2007-04-27 15:57 CET:

No more seeds this morning... 15:00 GMT

T.Durden at 2007-04-28 23:16 CET:

tried uninstalling, CS3 clean, and reinstall. Everytime it won't
let me install PS,AI,InD, bla, bla!!! DO I have spent two more
days downloading another torrent? what the h\$ll is checksum and
how do I verify. Help.....Please!

rubberkeith at 2007-04-29 13:01 CET:

someone!

T.Durden at 2007-04-29 17:39 CET:

Tried two different installers, uninstalled, ran CS3 clean from
adobe---level 4, restart, installed again.....only shared
components, flash, and dreamweaver will install, what the F*ck!!!
Help Please

bicep at 2007-04-29 21:01 CET:

Anyone who has serial for indesign cs 3, and dreamwaever?

rubberkeith at 2007-04-30 08:29 CET:

@bicep: According to the description, there's a zipped file with
each app's individual krack, which will work to the same end as a
serial (and is necessary in some Premium software, which doesn't
use serial numbers as a registration system)

Bellatov at 2007-04-30 16:14 CET:

Can anyone seed this I'm at 98% THANKS!!! You are all great...

jorgp at 2007-04-30 16:54 CET:

I have 98% done, and no seeders.. please seed

Olive74 at 2007-05-01 04:41 CET:

boniface at 2007-05-01 06:36 CET:

creativeminds at 2007-05-01 11:25 CET:

I keep getting this message "You can't apply the Path on this File!" any solutions.

Olive74 at 2007-05-01 13:58 CET:
